

5.) Use your compass to draw a circle with a radius of 4 cm.

6.) Use your compass to draw a circle with a diameter of 7 cm.

7.) Use your compass to draw a circle with a circumference of 18 cm.  
Remember first you need to find the radius of diameter.

8.) Calculate the area of circles with a:

a) radius of 4 cm.

b) diameter 7 cm .

C) circumference 18 cm.

- 9.) Write a word problem of your own that asks one to calculate the circumference and area of an object.
