# ***Introduction***

Dear Reader,

Christopher, Patrick and Lily were given a gift by their neighbour one summer -- a laptop that had been found in an old backpack tucked away in a cluttered closet.

The kids were excited to be able to use their new computer to surf the 'net -- and amazed to discover that by pressing down the <ENTER> key, they could travel to the webpages they had been viewing!

Join the *NetTrekkers* as they visit different people and places in Canada, narrowly avoiding trouble by returning home just in the nick of time with a touch of the <HOME> key.

These are journeys you'll never forget!

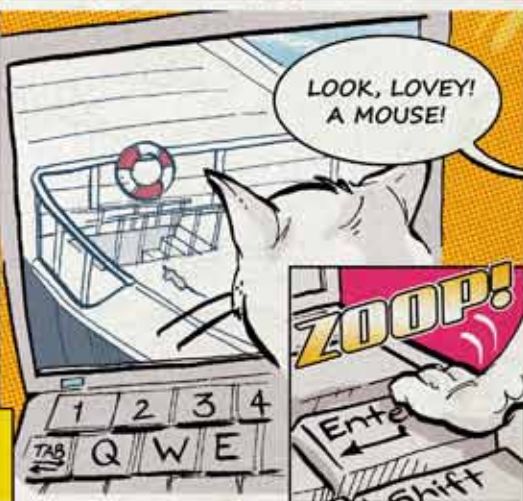

CHRISTOPHER, PATRICK AND LILY HAVE JUST RECEIVED A SECOND-HAND LAPTOP COMPUTER FROM THEIR NEIGHBOUR...
